a
$p(T)$ $[1,0]$ or $[0,1]$
$p(d)$
r_1 r_2 .... r_i .... r_n
$\mathbf{S}$
b
$\hat{I}_{\mathrm{real}} = \frac{d\vec{\mu}^\top}{d\theta}\mathbf{S}^{-1}\frac{d\vec{\mu}}{d\theta}$
$\hat{I}_{\mathrm{cross}} = \frac{d\vec{\mu}^\top}{d\theta}\mathbf{S}^{-1}\frac{d\vec{\mu}}{d\theta}$
$\hat{I}_{\mathrm{real}} < \hat{I}_{\mathrm{cross}}$?
$\hat{I}_{\mathrm{real}} = \frac{d\vec{\mu}^\top}{d\theta}\mathbf{S}^{-1}\frac{d\vec{\mu}}{d\theta}$
$\hat{I}_{\mathrm{cross}} = \frac{d\vec{\mu}^\top}{d\theta}\mathbf{S}^{-1}\frac{d\vec{\mu}}{d\theta}$
$\hat{I}_{\mathrm{real}} < \hat{I}_{\mathrm{cross}}$?
c
Prob. Choose 0/45
